I am an experienced wedding photographer offering a flexible, relaxed service. I love my job and have covered weddings from just 2 people (and yes, I have signed the schedule!!) to nearly 200 hundred people!

Since many weddings today are held in a single location my prices are based on an hourly attendance rate on the day plus materials, post production time preparing the photos for print and website, postages, insurance etc. I am happy to work out the best options for you to get the most from your budget. This means you have flexibility in choosing when and where you want coverage to start - even within the smallest package.

All prices are based on local area only and travelling costs are built into the price. I am happy to travel outwith my local area and a further charge will be made to cover travel and subsistence and
